

Gauravi Linjara

Product / UX-UI Designer · AI, Fintech & Enterprise B2B

LinkedIn | gauravi.design | +1-408-642-9491 | gauravilinjara@gmail.com

SUMMARY

Product / UX-UI designer with 6+ years of experience across AI, fintech, and complex B2B platforms, working on web and mobile products across the USA, Dubai, and India. Passionate about turning complex, high-stakes systems into intuitive, trustworthy experiences and solving real business challenges with measurable impact. Enjoy working in fast-paced, collaborative teams alongside product and engineering.

WORK EXPERIENCE

Senior Product Designer / Podonos Inc.

San Jose, CA · Jan 2026 - Jun 2026

Seed-stage consumer AI voice platform routing and evaluating scripts across multiple TTS engines in real time.

- Owned end-to-end product design from concept to shipped pixels - interaction flows, UI, micro-interactions, and motion across web and mobile - as one of the first designers, shipping to a live product (onepin.ai).
- Collapsed a localized-audio pipeline from ~10 days to hours by replacing a 5-step manual chain with a single decision layer, eliminating 9,000+ throwaway QA files per script.
- Built the design system and design language from scratch - 300+ components across 100% of surfaces - including the component library, type system, and a trust framework that turns model behavior into clear UX signals.
- Designed AI-forward and shipped to code - a node-based pipeline canvas a human or AI agent can drive - building production React via Claude Code and the Figma MCP alongside engineering.

Senior Product Designer / Emirates NBD Bank

Dubai, UAE · Jan 2024 - Aug 2025

The UAE's largest bank; AED 1B corporate-digitization program - I owned three flagship B2B platforms end-to-end:

- FX Online (live FX deal-booking): cut deal-completion time 80% to under 90 seconds; platform booked AED 262M revenue across 16,265 deals with 400+ users onboarded by launch.
- smartTRADE (trade finance): drove 2.5× growth in trade requests and 80% faster guarantee processing, taking a paper, courier process 100% paperless across 300+ screens under UCP 600 governance.
- Business Online (iOS & Android): led UX/UI with two designers, delivering 3× faster task completion and 70% faster delivery across 500+ screens and 12+ role-based journeys.
- Standardized 10+ WCAG-accessible components adopted by frontend teams (3rd in a company-wide hackathon) and cut policy-rule retrieval time 56% by redesigning information architecture.

Senior UX/UI Designer & Researcher / Mashreq Bank

Dubai, UAE · Dec 2022 - Jan 2024

Top UAE bank; redesigned the customer-care experience across web and mobile.

- Reduced support calls 35% and compressed a task from 4+ clicks to 1 by redesigning the customer-care experience, with 28% more issues resolved on mobile.
- Cut design-to-development time 42% by shipping a component library alongside design, and lifted homepage search engagement 14% by reworking information architecture.
- Drove design-system adoption and converted complex financial terminology into accessible UX by co-leading a design-thinking workshop for banking staff.
- Grounded the redesign in user research, usability testing, and competitive benchmarking of best-in-class help patterns (Amazon, Netflix, Spotify) to prioritize fixes with product teams.

UX/UI Designer & Researcher / Accenture Song Studio

Mumbai, India · Sept 2020 - Nov 2022

Accenture's design and innovation arm; enterprise clients including Pfizer and 3M.

- Improved funnel conversion 120% for enterprise clients, Pfizer and 3M, by running heuristic audits, journey mapping, and navigation redesign.
- Delivered 500+ responsive screens for an emerging-tech incubator by aligning digital and physical touchpoints for seamless adoption.

EDUCATION

MS, Human Factors & Ergonomics (UX Concentration) - 3.90 GPA / San Jose State University,

San Jose, CA · Aug 2025 - May 2027

SKILLS

Design: End-to-end product & UX/UI design, interaction & visual design, micro-interactions, systems thinking, design systems & component libraries, responsive design, accessibility (WCAG), wireframing, prototyping

Tools & Front-end: Figma, Adobe Creative Suite, AI-assisted design (Cursor, Claude Code, Lovable), HTML / CSS / JavaScript / React, design-to-code

Strategy & Research: Product strategy, user research, market & competitive analysis, A/B testing, data-informed design, cross-functional partnership (product, engineering, data), storytelling & mentoring

INTERESTS

Friends of Figma San Jose chapter lead; ADPList design mentor; generative & algorithmic art (gauravi.design/lab); design conferences & speaking.
